

CAMO IN FOCUS

SEPTEMBER–OCTOBER 2022

TOUR CAMO

Would you like to take a tour of CAMO? Call the office at (330) 683-5956 and see how God is moving by bringing hope to the forgotten.

EXPLORE & LEARN

Visit CAMO's brand new website! See more of what we do and read testimonials of miraculous healing. www.camo.org

HOW YOU CAN HELP

It costs CAMO an average of \$100 to save one child's life. As a donor, service group or church congregation, prayerfully consider helping meet the needs of the poor.

BECOME A CAMO VOLUNTEER

We welcome adult volunteers of all ages and skill levels. Please call CAMO and use your gifts and talents to make a difference in the lives of so many.

ANGELLY'S MAGICAL STEP

This is the story of sweet fairy lover Angelly, a seven-year-old girl who lives in the small village of Balfate, Colón. One year ago, she was diagnosed with cancer in her right knee. Eventually, her right leg was amputated. But don't feel sad for long – Angelly was a caterpillar transforming into a beautiful butterfly.

This October, a magical twinkling in her eyes could be seen as she received a new prosthetic leg specially made for her at our Orthotic and Prosthetic lab. Now she can go back to running, dancing, and playing with her friends!

Despite going through many hardships at such a young age, Angelly is a girl full of life and charisma. The day she received her prosthetic leg, she immediately started dancing and wouldn't stop thanking God and hugging our lab team of Santos and Vanessa. Her joy was so contagious, and she shared these words with us: "All my challenges tasted bitter, but now my victory tastes sweet as honey."

We will not cease to say that your donations are impactful. Just look at this magnificent story that you have been part of! At CAMO we feel so grateful to be able to change lives for the better for many people in need. Angelly is one of more than 700 patients who are treated daily with evaluations, measurements, orthotics, and prosthetics. Many more girls, boys, and adults still do not have access to these vital medical services. But, with your heartfelt compassion, we can continue expanding our reach.

If you wish to donate to our cause, please don't hesitate to contact us by calling our offices or sending us a message on our social media.

GIVING TUESDAY

Tuesday, November 29th, 2022

Giving Tuesday is a global generosity movement unleashing the power and impact of giving. It inspires hundreds of millions of people to give, collaborate, and celebrate generosity.

Please, join this global movement on November 29th, 2022. With your support, CAMO can continue providing life-saving services to those in need.

Congratulations to CAMO Founder and Executive Director, Kathy Tschiegg on a well-deserved honor: the 2022 Distinguished Citizen Award from Kent State University. This award recognizes individuals who have generously contributed their time and talents to benefit others and improve their community. On behalf of the CAMO family, we want to share her joy and show gratitude for her hard work throughout these years.

Josue, 7, had cataracts on both eyes, compromising his sight, affecting his education and daily activities. He would've gone blind without surgery, unable to go to school, and with fewer opportunities. However, he finally had surgery to remove the cataracts. His vision is now restored. Thanks to your donations, our counterparts, and the constant support of the Robles family, CAMO has worked hard throughout these years to establish the ophthalmology program.

With its diabetic foot program, CAMO works to provide better care to people facing these health problems. Some cases are serious enough to consider amputation. Dr. Bladimir Irias is donating his time to treat four patients every Wednesday.
