In CAMO’s 30th year, we reflect on our transformative journey that started with 13 programs serving 35,000 people annually in the first decade to reaching 26 programs serving 177,699 people in the fiscal year 2022-2023. Alongside an immeasurable indirect impact, CAMO grew its workforce and continued sending eight truckloads of medical supplies annually. We are deeply grateful for the countless individuals who have contributed to our mission. Each person has played a pivotal role in turning the CAMO Model’s vision into reality.

We look forward to encountering new individuals whose unique contributions will continue shaping CAMO’s services into an evolving narrative.
