HOW YOU CAN HELP

It costs CAMO an average of \$100
to save one child's life. As a donor, service
group or church congregation, prayerfully
consider helping meet the needs of the poor.

BECOME A CAMO VOLUNTEER

We welcome adult volunteers of all ages and
skill levels. Please call CAMO and use your gifts
and talents to make a difference in the lives of
so many.

After a life in darkness, sight and hope is restored

Juan, a 23-year-old painter and farmer, struggled with vision problems since childhood. Without being seen by a doctor, his vision deteriorated, causing partial closure of one of his eyes and imminent blindness.

Upon learning about CAMO through a friend, Juan sought help and was diagnosed with congenital cataracts in both eyes. Our dedicated doctors at the Robles Eye Center performed the crucial surgery, a success that restored Juan's ability to farm and paint. Now, he even sees colors with new clarity! Eight months after his surgeries, Juan is picking coffee beans on their farm, an activity that generates income for him and his family.

Stories like Juan's inspire and motivate our team to continue serving our patients with empathy and excellence. Thank you for helping us provide sight and hope to those in greatest need throughout Honduras.

If you would like to support our medical, educational, and community development programs in Honduras, please visit: camo.org/donate

Through our Facebook post in December, an anonymous donor contacted Kidron Kars to purchase a minivan for us. Thanks to Blaine & Gordon Amstutz of Kidron Kars, they made it possible and donated extra to make sure we had a newer van. This vehicle is vital for small pickups of medical supplies and when our counterparts from Honduras come to Ohio for specialty training. Thank you to the person or persons out there who made this possible!

CAMO continues with the construction at the trade school, which will soon be classrooms for first aid and CPR courses accredited by the American Heart Association.

Juventina was selling fireworks when some exploded, fusing the skin on her leg and forcing her to crawl for years. Thanks to plastic surgeon, Dr. Linda Camp and her team performed surgery on Juventina in 2011 during an international brigade. Juventina began rehabilitation to recuperate the contracted muscles and was able to fully recover. We were overjoyed to see her walk through our doors to visit us recently!

Whether you're a student, working professional, or retired, we have serving opportunities for you! Two instructors and three Physical Therapy Assistant students from Stark State joined us to sort prosthetic and orthotic supplies. It was a great opportunity for the students to learn more about this equipment while also helping CAMO sort the supplies to be shipped to Honduras!
