HOW YOU CAN HELP

It costs CAMO an average of $100 to save one child's life. As a donor, service group or church congregation, prayerfully consider helping meet the needs of the poor.

BECOME A CAMO VOLUNTEER

We welcome adult volunteers of all ages and skill levels. Please call CAMO and use your gifts and talents to make a difference in the lives of so many.

A Story Still Being Written: Dariela's Steps

Dariela, 14, received a prosthesis at 13. Today she walks to school with her classmates and dreams of becoming a stylist.

Fourteen-year-old Dariela Julissa Bajurto was born in El Maguellal, a remote community in Belén Gualcho, a mountain municipality in western Honduras that is far away and hard to reach. A congenital malformation kept her left leg from developing and limited her mobility.

Dariela has been a CAMO patient since she was three. In her first years she used orthoses, and CAMO was always by her side. But a prosthesis was out of reach for her family. Then, at 13, thanks to funding from FAKS Foundation in partnership with CAMO, she received one. It was the only way she could have had it.

A year later, our team made the three-hour journey from CAMO's headquarters in Copán to see how her life had changed. We were welcomed with tears of emotion. At her school, where we went to see how she does day to day, we were greeted with joy.

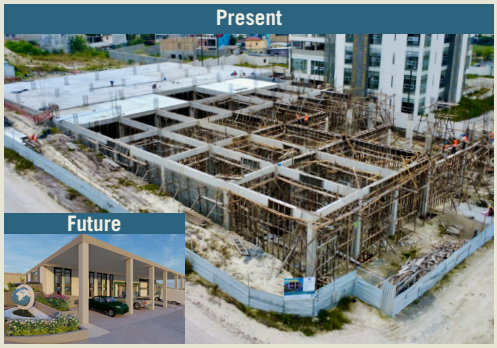

Dariela walks about 45 minutes from home to school along dirt roads, through forest and cool mountain air, usually with some of her classmates. She and her mother grow vegetables on a small piece of land, a place that is small but welcoming. Dariela is shy, but she told us what she wants: to be a professional stylist. She also loves to paint.

"We once thought only people with a lot of money could have a prosthesis. With God's help and CAMO, who have always been so special, my daughter has a chance to improve her life," said her mother, Ofelia Matheu. "We faced financial and social struggles and could not find help, but God worked a miracle."

Dariela is one of many: our prosthetics program has served 842 patients, and the FAKS partnership has provided orthopedic and prosthetic devices to 33 children since 2024. Behind every one of those steps are donors who believed a child deserved the chance to take them.

Capital Campaign

Empowering Tomorrow: Sustainable Health and Education for Honduras

RAISED $ 1,483,537 | **GOAL** $3,478,633

Keep going, we're almost there! 42.65 %

Phase one of the capital campaign is well on its way! We've raised $1.4 million of our $3.4 million goal. Phase one includes a new 0.85 acre warehouse along with a prosthetic and wheelchair fabrication lab and biomedical area. Follow us on social media for weekly project updates!

Students from 53 schools in Corquín, Copán, came together for CAMO's annual reading speed and comprehension competition. Our Literacy Program supports 16 schools and reached 1,672 children last year. Congratulations to all our winners!

Months ago, CAMO donated a $65,000 C-arm X-ray unit and control tower to strengthen our neurosurgery program. It was key in 12 spine surgeries during our latest brigade. For these patients, it is not just equipment; it is hope.

We closed our brigade season, bringing specialized care to communities where many people had been unable to see a doctor because of cost or distance. With partners and volunteers, we provided 4,320 services.
